

# Hill-Burton Grant Funds Are Available To Belle Glade

Many citizens may have wondered WHAT are Hill-Burton Funds, and WHERE they come from! The following may assist in clarifying the picture:

Hill-Burton program is under the Hospital and Medical Facilities Survey and Construction program which authorizes the use of Federal funds to assist in the construction of general, mental, tuberculosis and chronic disease hospitals, public health centers, diagnostic and treatment facilities, rehabilitation centers and nursing homes.

Projects may consist of completely new buildings, or the remodeling or enlarging of existing facilities.

Applicants are given a priority rating, based on needs, and Federal Funds are GRANTED.

The Florida Development Commission has designated the Development Commission as its agency having responsibility, and this agency has made surveys of needs and kept current a state plan which lists existing hospital and medical facilities.

The Florida Development Commission has advised, on reliable inquiry, that the Belle Glade Hospital is eligible, as a responsible local applicant for Hill-Burton grant of funds; that they were eligible last year and would have received a grant had they proceeded with their request.

The consolidated request was made, however, and the Belle Glade Hospital application was not acted on. This does not mean that Belle Glade is not eligible, but would receive funds should they request

them, either this year or next, in order of priority.

There is no basis to any rumor that should the consolidated hospital fail, then, no Hill-Burton funds are available. The funds are available, only limited to the total amount Congress makes available and the priority rating Palm Beach County falls in.

Belle Glade Hospital COULD be assigned funds this year should a request be made for them.

## Mills Byrom Awarded For Service By U. S. Dept. of Agriculture

DON FISHLER, left of USDA, is shown congratulating Mills Byrom, ag Engineer, after presenting him with a Certificate of Merit for outstanding leadership and research in harvesting and processing long vegetable fibers.

Mills H. Byrom of Belle Glade, agricultural engineer, and leader of Long Fiber Plants Harvesting and Processing Investigations, has been presented with a Certificate of Merit and cash award by the U. S. Department of Agriculture. The certificate is for outstanding leadership and research in harvesting and processing long vegetable fibers.

Mr. Don Fisher presented the award for Mr. W. M. Bruce, Chief of Harvesting and Farm Processing Research Branch, Beltsville, Maryland, who was unable to attend. Mr. Fisher is a well known civic leader in Belle Glade and an employee of USDA.

Mr. Byrom joined the U. S. Department of Agriculture February 15, 1942 and has made significant achievements elsewhere as signed to the U. S. National Vegetable Fibers at Bogart Branch.

The project was moved to the Everglades Experiment Station 14 years later where work has been continued on ramie, kenaf, sannexine, brush fibers and others such as bamboo for paper pulp. Mr. Byrom has published many papers and has contributed to such publications as the Yearbook of Agriculture and the Encyclopedia Britannica.

Mr. Byrom is president of the Everglades USDA Club, treasurer of the Florida Section of American Society of Agricultural Engineers, member of the President's Committee on Equal Employment Opportunity, and served in 1951-1952 as liaison officer for the U. S. Government in Central America.

Who says we can't have more recent  
drives? I support progressive  
school management, with complete  
confidence in our school system's  
education for our children. My oppo-  
nent wants an immediate \$12,000,000  
bond issue, which we can't afford at  
this time. Until recognized educa-  
tors tell us so and we can afford it,  
I will not have additional

Harold A. Turner, Vice-Chairman of the present  
School Board, has most effectively helped to in-  
crease school facilities and programs without ad-  
ditional taxes.

Harold A. Turner is an able businessman, a devoted family  
man. He is the only incumbent School Board candidate.

## The Ram Page Salutes

By Sheila Rustin

The outstanding student for this week is Anna Marie LaChance. Anna Marie, a junior, is a petite, green-eyed brunet.

One of the most striking things about Anna Marie is her academic standing. She has made all A's for the entire year, thereby entitling her to be a member of the Bell Club.

Anna Marie is a member of the Future Homemakers of America, which she serves as an officer.

She is a member of the An-

nual staff and the treasurer of the Student Council.

Her pet hobby is to be called Anna Marie.

Anna Marie's favorites include shrimp (any form or fashion), the color blue, and albums by the Beach Boys.

She is active in the St. Phillips Catholic Church, of which she is a member.

Anna Marie plans to attend the Catholic University of America in Washington, D. C. Her ambition is to be an interior decorator or an architect. It is the opinion of this writer that she will be a success in whatever she endeavors to do.

## Editorials

The opinions of the editor do not necessarily represent those of the Ram-PAGE staff. The Belle Glade Herald or Belle Glade High School staff differ with that of the editor may be answered in THE RAM-PAGE. The editor reserves the right to publish or not publish any letter or article at any time of every other week. We welcome your opinions on important subjects.

### The Editor Speaks

Comment on Controversial Subjects

RACE RELATIONS — There are too many extremists on both sides. The N. A. C. C. P. has come to be about as radical as the Ku Klux Klan. A middle-of-the-road policy should be followed.

POLITICS — I intend to join the Republican party when I become of age. I dislike both the extreme Left and the extreme Right. The Republican party seems to follow the middle of the road more than the Democrats. I had rather be in a party which has produced Abraham Lincoln, Theodore Roosevelt, Dwight Eisenhower, and Richard Nixon than one that has produced William Jennings Bryan, Adlai Stevenson, and Robert Kennedy.

RELIGION — I am a Methodist. I try to be a strict Christian, but it is unbelievable how difficult this is. Try it yourself. I believe in freedom of religion for everyone.

CAPTION REQUIREMENTS — I am firmly opposed to this process of legalized marijuanna. It has never been, is not, and never will be a deterrent to crime. It is merely revenue.

EDUCATION — We need more trail-blazers in this field. Some changes are needed in our English, physical education, and foreign language programs.

THE COMMUNISTS — They are not as great a threat internally as externally. We do not follow as strong a line as we should. I hope all the rumors about our going even easier on Berlin are false.

MUSIC — I like classical music and some of the regular old standards. I dislike most rock 'n' roll.

ART — I don't like modern art, possibly because I don't understand it. My favorite classic artist is Michelangelo; favorite modern-day artist is Norman Rockwell.

SPORTS — Football used to be a brutal, idiotic game ruled by the gamblers and racketeers. If it could be cleaned up it would be all right. My favorite participating sport is golf; favorite spectator sport is baseball.

PRESIDENT KENNEDY — He is an honest man who should not try to please all the liberal people around him. He is a fine author. I enjoy "Profiles in Courage."

THE FIRST LADY — Mrs. Kennedy has done more than all the ladies in recent years to improve the White House and help our relations with other people. Her speaking Spanish to Latin Americans and French to Frenchmen can't help but spread good will.

LITERATURE — The book I always go back to read when I'm really tired is Kenneth Grahame's classic children's book, "The Wind in the Willows." I am always refreshed by the simple, humorous antics of the Water Rat, the Mole, and the Toad. Among modern books, I have enjoyed William Shire's "Rise and Fall of the Third Reich," Allen Drury's "Advise and Consent," and Henry Bellman's "Kings Row." My favorite authors are Ray Bradbury, Edgar Allan Poe, Robert Benchley and Sinclair Lewis. I also like Ernest Hemingway, Carl Sandburg, and Jim Bishop. I don't care for Shakespeare and Chaucer, no matter how great they were.

GETTING OUT OF HIGH SCHOOL — I guess all the seniors are getting tired of it, but we will all have a heavy heart and a lump in our throats when we walk down that graduation aisle.

THE YOUNGER GENERATION — They have left us with the highest standard of living we have ever known in this country. Of course included in this everything is nuclear bombs, the Cold War, intolerance, corruption, apathy, frustration and despair.

THE YOUNGER GENERATION — We have a tremendous job to do. We are the leaders of tomorrow. We must now mold our own futures, and we cannot forget our troubles by getting in a fast car and letting the wind blow where our hair. We can no longer run away from our problems. We must face them. Now we must do as the Psalmist said: "We must put away childish things." The days of our childhood are over. With them we say good by to the sadness and joy, thrills and chills, love and hate, beauty and ugliness that we have known. It has been superb, but now we must go on to new things. And with our faces turned toward the future and our hearts and minds fixed on the steady path of good, we shall walk forward for a new tomorrow.

### Important Notice

There will be one more RAM-PAGE under the present editorship. After May 17th, edition, all Seniors are resigning from the paper to make room for next year's staff and new staff, under new editorship, will publish the May 31st issue.

If you would like to work on

the May 31st issue and next year's, please contact one of the Sophomore or Junior members

or Mr. Tidwell.

**Stuart B. Fuller**  
**Building Inspector**

Belle Glade's new building inspector, Stuart B. Fuller, brings to his duties a background of education and professional experience to cope with what ever building Belle Glade's future has in store.

As an operator on his own he has built industrial and commercial buildings and has acted as prime contractor for government departments.

As Superintendent he has had varied experience in modern buildings, and served a number of years as consultant and supervisor for the Florida Hospital.

Program which Hill-Burnton funds throughout the State.

Following the receipt of his wings from the Air Force, he served as a Test Pilot and in Spanish.

Mr. Fuller, now with his wife,

two boys, age 14 and six at 848 S. W. Third Street. The oldest son, 17, is completing his present year's study at Riviera Beach High School. The two youngest entered the Glade schools this week.

### "Successful Season" Production Wise Says Pres. Vaughn

CHAMOIS RAINBOW QUEEN — Gwen Gove was crowned Rainbow Queen at the annual Rainbow dance held at the Armory. Other candidates were left: Gloria Smith, Cherry Bridges and extreme right Sherry Tabb. Marynes Collins, last year's queen second from right crowned the new queen, and was presented a gift. Miss Gove was presented an arm bouquet of pink roses.

Eighty-three couples enjoyed the dance. Big balloons in rainbow colors, balloons and a rainbow with lights were used in decoration. The table covered with a lace cloth was centered with Easter lilies and 2 cut glass punch bowls. Punch, cookies and open face sandwiches were served. Chaperones were Mr. and Mrs. Fred White, Mr. and Mrs. Fred Simmons and Mr. and Mrs. A. B. DeGraw were chaperones.

As customary, some 2,500 employees and their families celebrated the end of the season with a barbecue and dancing.

In commenting on the most successful production, when a day's milling of more than 9500 tons of cane was accomplished, Mr. Vaughn said:

"This is a most successful season, production wise," said Harry T. Vaughn, president of U.S. Sugar Corporation. "Every year our employees should be proud of his accomplishments during the past year and I know they are all looking forward to next year and more production records being broken."

**Hal Dane**

Hal Dane, of Boca Raton, candidate for the Republican nomination for County Commission in the May 8 primaries has come out plainly and without equivocation in favor of proposed increases in gasoline and cigarette taxes. Dane says: "Palm Beach County tax roll for everything other than real and bridges is \$1,000,000,000.00. . . Of this, the County Commission controls about \$6,000,000."

"I believe we are paying enough taxes now to progress reasonably without imposing any new taxes on our people. So I am again the first to demand increase in gasoline and cigarette taxes and equal tax against any further tax on cigarettes."

"I want the voters to remember that I have been 2 years in office on the Boca Raton City Commission, ad valorem taxes (those levied on homes) were reduced over 20 percent. I am a conservative man, careful of my own funds and even more so when I am spending other people's money. You can trust me to be a full time Commissioner looking well after your County affairs."

"Please be sure to vote for me. Your support and vote for me will be long remembered."

## Your Library

The juvenile department of the public library is being made ready for the summer reading program. Recent addition is the "Discovery Books." All contain colorful, historical stories about famous people highlighting adventure, personality and history. Books are aimed for primary-grade children; these fast moving stories will appeal to youngsters of all ages.

Other sites, in order of their use, were Palm Beach High School Annex, Morrison Field, Lake Park City Hall, and finally 114 Main Street. Palm Beach County Memorial Park, given the college by the Palm Beach County Board of County Commissioners.

Southside Kiwanis and Circle K student members on the campus will serve a Barbecue from 12 noon to 5 p. m. at the Open House Sunday. Local and County wide residents are invited to participate in both events. Tickets for the barbecue are \$1.50 for adults and 75¢ for children. Dinners may be taken out.

## FFA Has Membership

Belle Glade FFA, Belle Glade, Florida, was named to junior membership in the American Herdendorf Association, the world largest purebred registry organization, with Headquarters in Kansas City, Missouri.

Sixty-one junior Herdendorf breeders were placed on the list of the Association's members during March. The Association maintains active accounts for more than 80,000 breeders of registered Herdendorf cattle.

The Herdendorf Association during the last fiscal year recorded 476,287 purebred calves. The Association's total recordings were the eighth largest in the country, almost twice the combined registration of other major beef breeds.

Men of Science and Invention; Thomas Jefferson and His World; Trappers and Mountain Men; The Story of Yankton, Naval Battles and Heroes; Pictures of the Spanish Main.

It is desired that all parents encourage children to read so that they may increase their knowledge of the world.

dwarf. The woman sent him to change the King of the Mayan and the dwarf proved to be a genius in a number of tests. The king, greatly irritated, ordered the dwarf to build a great palace in a single night. He would not help the dwarf with the building of the hut which built the palace in the required time. The king, now mad with fury, demanded that the dwarf be executed. The dwarf, however, split open when his turn arrived. The dwarf was then pronounced a Magician and recognized as the King of the land.

Another building is the Nunnery Quadrangle. It consists of 4 buildings — North, South, East and West. There are many ornate decorations all over the buildings. On the corner of the East Building is found masks of the Rain-god. The Mayan had no written language, therefore they had to depend on the building of these masks to tell their stories. Over the doorway of this building is the mask of the god Chac. The North Building has the mask of Venus and the South Building has bats on the Mayan drinking place.

The Palace of the Governor, the Palace of the Governor, the House of Turtles, the Dove-cote, the Cemetery, and many more. The Palace of the Duke Governor is very impressive, and the House of Turtles is believed to be the Mayan drinking place.

## Brethren Volunteer Service Covers Many Activities at Osceola Center

Since last November when Julian Griggs, director of the Florida Christian Institute to Migrants program at Osceola Center, took a year's leave of absence to serve as a representative of the Canadian Peace Institute at Toronto, his wife, Kay, has been able to care for the young man of the Institute.

The Herdendorf Association during the last fiscal year recorded 476,287 purebred calves. The Association's total recordings were the eighth largest in the country, almost twice the combined registration of other major beef breeds.

Men of Science and Invention; Thomas Jefferson and His World; Trappers and Mountain Men; The Story of Yankton, Naval Battles and Heroes; Pictures of the Spanish Main.

**Osceola Nursery**  
At the nursery is where most of their work is. Providing care for pre-school children ages 2-5 and their parents. The number of children varies with the season. In December there were 49. The majority are from Osceola Center, but many are from Belle Glade. Most of the nurses are also in agricultural work in field and packing houses.

Mrs. Ruby Atkinson, a full-time salaried worker, is in charge of the nursery from 7 a. m. to 5. Mrs. Oralee Barbre works part time in the nursery. The nursery is also run by the Brethren Service Center. A Kindergarten is also provided for those who will attend school next year.

The nursery children are given two snacks, hot lunch, and hot supper, if there. Naps are taken from 12:30-2:40 longer if wanted. The children sleep on cots in the nursery. There is a great need for cots here, about 40. The volunteers are planning a little Miss Osceola Contest. The proceeds will help the nursery.

**Church Youth Fellowship**  
The senior high group at Osceola meet Monday nights 7:30 to 9:30 and the Junior group meet Tuesday night from 7:30 to 9:30. There are approximately 15 in each group, mostly less seniors at this time.

Their activities consist of re-enactments, checkers, cards, chess, etc., active games, organized group meetings and business meetings.

Programs have been presented at the various town meetings, including mental health dating, highway safety, films and slides discussions on different subjects, blacklight parties and other fun and games are also enjoyed by the boys and girls.

A worship service is a part of the program and special events include skating, parties, swimming, picnics, parties in the hall with dancing, recreation and refreshments. Visits with other groups are also enjoyed.

**Archery Club**  
The boys from the fifth grade up are eligible to join in the Archery Club which meets two

times a week. At this time there are eight members. They make their own equipment, practice shooting, participate in tournaments and go on hunting trips in the afternoon and over-night.

**Recreation**  
From 2:30 when school is out to 5 p. m., Monday through Friday, 7-5 Saturday, and from 3 to 5 on Sunday, there is recreation for all ages. Games include basketball, softball, baseball and track events which are the most popular events and tennis is popular.

The girls in the third grade

have a club with the members meeting Friday afternoons.

**Other Services**

The volunteers drive to the coast five days a week in the clinic car owned by the county. They have rummage sales at

Visit the Randox® test plots at  
the Wedgeworth Farms

**See for yourself!**  
The plots on the left are pretty clean. It took 20 time-consuming cultivations to keep it that way, too. The granular Randox-treated plot on the right has a few weeds in it, but you can see, by comparing the height, how cane thrives when mechanical root damage is avoided.

There's also a plot of cane treated with a combination of Randox and 2, 4-D that's worth seeing. And you can see the results of using liquid versus granular Randox.

No sense telling it when you can see for yourself what Randox can do. Come out to the Wedgeworth Farms on the West Palm Beach Road near Belle Glade. Drive in the main entrance and on behind the tool shop. Turn left and the test plots are in the first block of cane on the right. They'll be marked like the one in the picture above.

If you've been looking for an easier, better way to raise cane — well, drive on out and see for yourself.
